

HACCP Consulting Group

Applying HACCP principles can be complex and difficult, even for companies with extensive food production experience. The HACCP Consulting Group was founded in 1994 to provide technical and managerial assistance for the development, implementation, and maintenance of HACCP, GMP, and SSOP programs. This assistance includes HACCP/GMP/SSOP Training, Plan Reviews and Evaluations, Audits, Reassessments, Crises Management, and Inspection Enforcement Issues. Our experts work within the guidelines of the USDA, FDA, Industry Associations and the International HACCP Alliance.
